

Rabbits

by Madison G.

Appearance

Did you know that the male rabbits are called a buck? A female rabbit is called a doe? The oldest female rabbit gets the best choice of burrows.

Habitat and Diet

Rabbits make their nests in the spring. Their nests are in a shallow hole. Some rabbits are vegetarian. The oldest female rabbits make the warren.

Prey/Predator

Rabbits have lots of predators. Some are: weasels, foxes, raccoons, hawks, eagles and owls. Baby rabbits can be caught by cats! Humans are also predators. Oh no!!!

Life Cycle

Baby rabbits are called kits. Baby rabbits are blind when born. The mommy rabbit feeds the bunny milk.

Like real kittens!

Interesting Facts

Did you know rabbits eat their droppings (poop)? Gross!!! Rabbits and hures (hairs) look a lot alike but, hures have more hair
